

Lewy Body Dementia (LBD) Education & Support Series

Starting June 24, 2021

Details:

- Who: People with LBD and carepartners for those with LBD.
- What: A meeting (~60 minutes) to increase awareness and education about a variety of topics encountered in the journey with LBD.
- When: Monthly on the 4th Thursday of the month from 1-2pm, anticipated launch June 24th, 2021.
*some changes due to holidays
- Where: Virtually during the COVID-19 pandemic with hopes of having the option for in-person meetings when it is safe to do so.

*Our first event will feature a virtual showing and discussion of *SPARK*, the story of Robin Williams and his battle against Lewy Body Dementia.

Please feel free to pass this information along to families, friends, and colleagues. We are thrilled to bring this community together to learn, grow, and help support those battling LBD.

Shirley Ryan AbilityLab is a Lewy Body Dementia Association Research Center of Excellence.

Hosted by:

Shirley Ryan AbilityLab
Parkinson's Disease and
Movement Disorder
program.

Speakers will include many experts and collaborators across rehabilitation and other disciplines involved in the care of someone with LBD. Presenters will include local experts from Shirley Ryan AbilityLab and Northwestern, as well as national and international guests.
